A Crash Course in Data Science

Building a Data Science Team

Managing Data Analysis

Data Science in Real Life

Executive Data Science Capstone

May 28, 2021

Dieter Lutz

has successfully completed the online, non-credit Specialization

Executive Data Science

Four intensive courses that prepare participants to begin assembling and leading a data science enterprise. 1. A high level introduction to the field of data science to prepare leaders for their role. 2. A framework required to recruit, evaluate, and develop a team with complementary skill sets and roles. 3. The structure of the data science pipeline, the goals of each stage, and strategies to keep the team on target throughout. 4. Practical skills to prepare learners for common challenges that can derail data science projects.

Jeffrey Leek, PhD, Brian
Caffo, PhD, MS, Roger
D. Peng, PhD

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
